

GET Chair PDG Prakash Gautam's Report  
Mid-winter Conference and Third Cabinet Meeting  
Report date: January 13, 2025

The District has already chartered four new clubs and is currently working with a couple of other clubs. I congratulate the sponsoring clubs and all the Lion leaders who worked tirelessly in chartering the new clubs. I have been in continuous communication with the District Governor about establishing new clubs in new ethnic communities and in big corporate houses. In this context, we have had several rounds of talk with a potential Lion, a management level employee of AT&T, to start a new Corporate Lions Club in AT&T. We have also approached to the leaders of the Indonesian community and Bangladeshi community. Lion Nia MacKay has started initial work of establishing a branch club in the Indonesian Community. We are on it; however, it is a gradual process and will take some time to complete the entire process.
