DISTRICT 2-X1

Membership Report | Cabinet Meeting: October 17, 2026

Membership data as of October 14, 2026

Submitted to: District Governor Gary Vineyard and the District 2-X1 Cabinet

1. District Membership Snapshot

Total Members	Members Added	Members Dropped	Net Change
2,214	94	216	-122

The district added 94 members but recorded 216 drops, resulting in a net decrease of 122 members. Retention remains a central challenge alongside recruitment.

2. Club Performance and Achievements

17 clubs gained members on a net basis, while 22 clubs recorded net losses. Importantly, 43 clubs had no membership drops; among them, 15 clubs added new members without losing anyone.

Leading net-growth clubs: Dallas Founder (+14); Dallas Manakamana (+5); Plano Collin Nepalese (+5); Dallas Cyber RESCUE (+3); and Dallas Trinity Industrial (+3).

Largest net declines: Dallas Everest (-26); UTD Infinity (-21); DFW Cyber (-20); and Collin Athena Alliance (-18). These four clubs account for a combined net decline of 85 members.

The results show that successful recruitment and zero-drop retention are possible across different clubs, providing practical examples of membership strength within the district.

3. Recognition of Membership Sponsors

We recognize the following Lions who each sponsored three or more new members during the reporting period:

Dhruba Pandeya, Dallas Manakamana (5); Jerlyn Mcauliffe, Dallas Founder (4); Dr. Nia MacKay, Dallas Founder (3); Carol Donovan, Dallas Founder (3); and Rajina Acharya Paudyal, Plano Collin Nepalese (3).
